MASS MEDIA

ONLINE MEDIA

A high-angle, wide shot of a massive, dense crowd of people, likely at a large outdoor event or festival. The crowd is composed of individuals of various ages and ethnicities, many wearing casual summer attire like t-shirts, shorts, and hats. The sheer number of people creates a textured, colorful mosaic of clothing and hair. In the center of the image, the words "SOCIAL MEDIA" are superimposed in a large, white, bold, sans-serif font. The text is slightly transparent, allowing the crowd behind it to be visible. The overall atmosphere is one of a large-scale public gathering.

PERSONALIZATION

The background of the image is a complex, dense web of thin, multicolored lines. These lines, in shades of blue, red, yellow, green, black, and white, crisscross and overlap in a chaotic, non-linear fashion, creating a visual metaphor for a highly interconnected network. The lines vary in thickness and are set against a light, textured background.

Competition Entry: Romanian Pavilion (Milan Expo 2015) / Collective East Architects

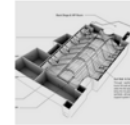

by Karissa Rosenfield via ArchDaily 2 weeks ago on design

Placing sixth in the competition to design the Romanian Pavilion for the 2015 Milan Expo, Collective East Architects offered a "simple and powerful landmark" that focuses on the history of Romania's agriculture. Serving as an "attractor and orientation mark," the structure was conceived by repeating a traditional Romanian pattern that "transformed the pavilion into a sculptural object with a powerful national identity." From a distance, the facade appears "introverted and impenetrable," as viewers move closer, the building begins to expose its contents, revealing a level of detail one would expect in a "jewelry museum."

Tomcat Brothers: The Illustrated Adventures of Two Space Age Boys and Their Graffiti Cat

on comic, book, space

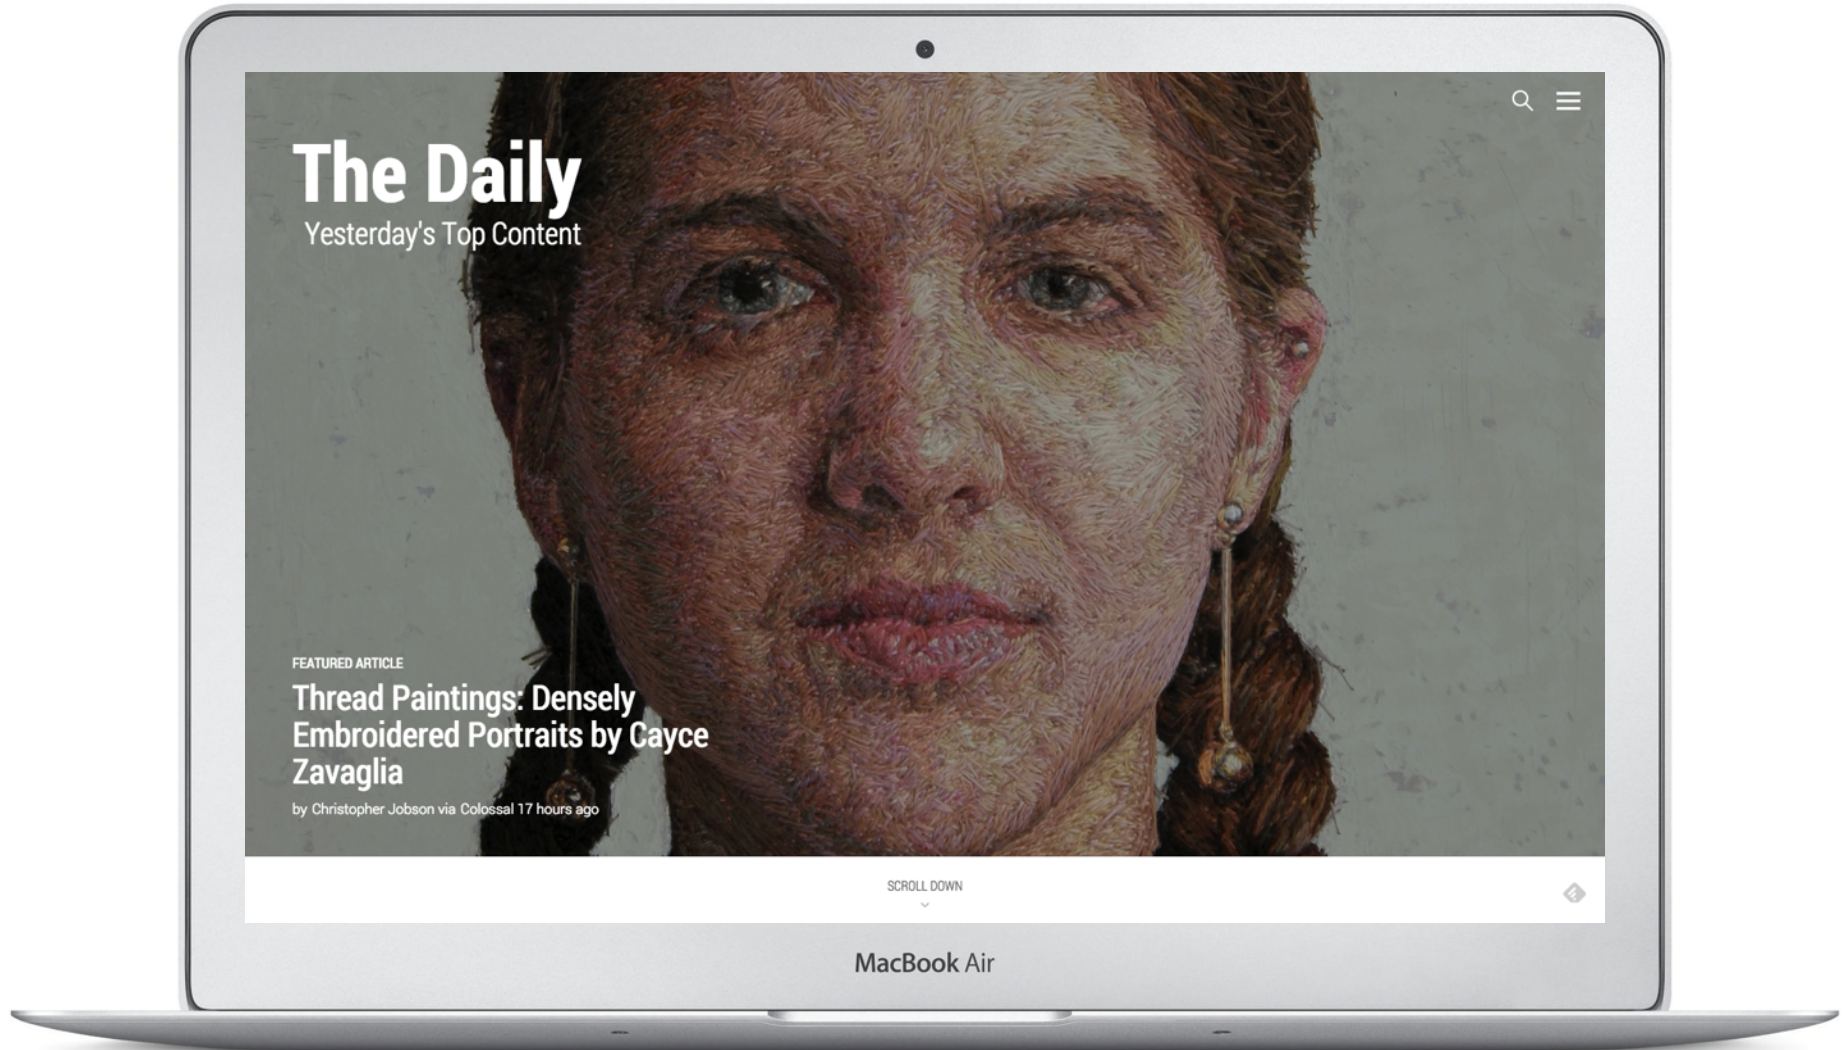

Digital painter and concept artist Piotr Jablonski creates brutally detailed paintings for videogames and comic books which often veer into the realm of horror, but in his spare time dabbles in somewhat tamer sketches and other random ideas that he shares with fans on Facebook. A few months ago he stumbled onto the idea of two small brothers in futuristic space helmets who explore the world with a feline pal, a giant cat mural that follows them everywhere, provided there's a wall. The response online has been incredible, with fans demanding an art book or even an entire comic book series. While nothing is concrete yet you can see more on Behance, and a few of the
