TP - Our Team and References

Our team is together for more than 7 years and we have delivered solutions for highly regulated industries – medical, financial, telecom and insurance

VivoSight – the world's first cancer scanner that detects blood vessels grown by a malignant melanoma with an infrared laser beam in 30 seconds. We were responsible for software development

TestBook – used by Virgin Media for SIP Trunk Testing

MediqARC – Regulatory Platform for ISO 13485:2016

Morten Kromberg – CXO Dyalog (man behind IBM Cognos Planning)

Others didn't understand what I wanted and you in TP just did it!

Roy Agostino – CEO Marketcetera (open source trading platform)

Technology Partnership is a force multiplier!
